Internal data looking at progress made from end of 2020/21 to end of 2021/22 for all year groups, breaking down specific focus groups.

PLEASE NOTE:

Years 1 and 2 have no data to make progress judgements, moving from EY to Y1, and then Y1 in the year 2019/20 where no data was collected. Additionally, there are anomalies in the Y3 data that distort their progress measures - this is being rectified, and the revised picture will be available and sent out to governors when complete.
