

UKS2 Summer Holiday Activities 2023

The summer holidays are finally here and all of the Dringhouses team hope you have plenty of time to reset, recharge and have fun. We have already started working on lots of interesting and exciting learning topics for the Autumn term and we cannot wait to share them with you.

The 1960s

Our Learning Project in the Autumn term is 'A Change in Time' which is linked to learning about the 1960s. Please could you speak to parents/carers/grandparents to find out information about the 1960s and start to find out more about that period of time. You could try to collect photographs or artefacts, or learn a song from the 1960s. We look forward to hearing all of your findings in September!

Reading

Reading is a fantastic way to relax and let your imagination wander. Who needs a summer holiday when you can be transported to magical lands by a book? There are lots of different books to choose from and the summer holidays are a great opportunity to try a new genre or author.

York Explore have launched their Summer Reading Challenge 2023. Sign up at any York library and start reading to earn prizes and certificates.

Times Tables

Next year we will be holding regular TT Rockstar battles, will class 9, 10 or 11 be the UKS2 champions? TT Rockstar accounts are active all summer long so you can build your skills and keep your speed up.

We hope you have the chance to spend time with family and friends this summer doing things you really enjoy. Little Vikings have compiled a list of free activities and events that are happening in York this summer.
